MedPRAI 2020
4th Mediterranean Conference on Pattern Recognition and Artificial Intelligence

Hammamet, Tunisia 20 | 22 December 2020

Call for Papers:

The conference aims to provide researchers and practitioners from academia and industry with a forum on the last developments in pattern recognition and artificial intelligence. The conference also provides unique opportunity for sharing experiences from different backgrounds with the common interest in advanced methods in the above-mentioned fields. The scientific program of MedPRAI 2020 will include the presentation of invited plenary talks, regular sessions, poster sessions and some special sessions.

Conference Topics of interest for submission include, but are not limited to:

- Neural networks
- Machine learning
- Data mining
- Object recognition
- Signal analysis
- Image coding & processing
- Shape and texture analysis
- Computer vision
- Robotics
- Remote sensing
- Document processing
- Statistical, structural and syntactic pattern recognition
- Text & graphics recognition
- Digital libraries
- Speech recognition
- Music analysis
- Multimedia systems
- Natural language analysis
- Information retrieval
- Biometrics
- Biomedical pattern analysis
- Artificial intelligence
- Graph-based techniques for pattern recognition

Submission: Authors are invited to submit original, previously unpublished research papers that is not currently under review by any other conference or journal. Paper should describe particular challenges. Papers should be written in English and submitted electronically by June 15, 2020 using the EasyChair online submission system.
